Villages, towns, streets and homes have much filth and squalor. Millions of people in India defecate in the open. Tens of thousands have been dying every year of diarrheal diseases caused by poor sanitation. Hence all this makes this mission national priority. And said, all our students should involve themselves actively in cleaning their surroundings of their residence or locality and cooperate to the local body to implement this mission. Principal again expressed dissatisfaction about use of public toilets in which says many people in rural areas think that defecation is healthy social attitudes related to caste purity and ritual pollution are seen to play a negative role in the use of public toilets. NSS ACTIVITIES FOR 2015-16

1. Tree Plantation on the eve of World Environmental Day :

On 5th June 2015, on the eve of World Environment Day, a programme was organized to create awareness to our students to keep surrounding environment 'neat' and 'clean'. The time has come now to know the ugly realities of our times due to our "use and throw culture". For this students are to be pro-active to do best to reduce our carbon foot print/global warming on war footing. In this context, each student is needed to understand what he/she need to do.

- To reduce smoky emissions from the vehicles (due to use of petrol, diesel, coal) which pose terrible health hazards; keep your vehicle emission free and fuel efficient; drive personal vehicles only in absolute needy condition. Use of solar and electric vehicle public transports is to be encouraged and use of bicycle which benefit health and environment.
- To reduce carbon foot printing tree are to be planted in front of our house, on road side, borders of fields. We need to understand that trees are imbining qualities inhale carbon dioxide and emit oxygen and that oxygen is essential for the life of human beings.

2. A fond remembrance of Subhashchandra Bose & his Achievements :

Subhash Chandra Bose was an Indian Freedom Fighter, Nationalist whose defiant patriotism made him a hero in India. He was the president of Indian National Congress from 1938 to 1939. He attempted to rule out Britishers in India during the world war II with the help of Nazi Germany and Imperial Japan.

Recently in view of the release of 30 files/letter relating to Subhashchandra Bose, from 1937 to 1947, by the West Bengal government, a student's discussion programme was arranged on 26th September 2015 for our BA students in the college seminar hall at 11:30 AM

Initially, Prof. Sharanabasappa Biliyeli has moderated the discussion. Principal, Sri.M.S.Dadmi, Dr.J.S.Patil and few staff members of Arts faculty and students were present on this occasion. As many as 10 BA students have come with preparation on the topic was informed earlier. The discussion part was concentration on the sudden disappearance of Sri.Subhashchandra Bose from the National Freedom Movement. Does Subhash death was due to plane crash or not ? What is the truth about the incidental news appeared and later secret correspondence held with Russian government and prominent Indian

leaders in India. Students in their discussion citing the examples, evidences of various committee report instituted on Subhashchandra Bose.

The questions are significant as many in the Bose's family as well as followers of Netaji and researchers believe that he had faked his death in the so called plane crash in 1945 to avoid being captured as a war criminal by allied forces. We are convinced that Netaji did not die in 1945 but he could not come out in the open because of the "war criminal tag". Why a National Icon's name would figure in a cell that should deal with extremists and other types of criminals.

The programme was useful to the students in collecting historical facts and reports relating to our national history. As such, it inculcates the research bent of mind to our students.
