

P.G Diploma in Solar Renewable Energy

PGDRE-203: Practicum-II Project work

Sub Code: PGDRE-203	
Total Credit:04	Internal Marks : 15 and Exam Marks: 35=50

Objectives of the paper :

1. To provide an opportunity for students to apply theoretical concepts in real life situations at the work place.
2. To enable students to manage resources, work under deadlines, identify and carry out specific goal oriented tasks.
3. To enable students discover their professional strengths and weaknesses and align them with the changing needs of environment.
4. To sharpen domain knowledge and provide cross functional skills.
5. To expose the students to the current power issues.
6. To learn apply multidisciplinary concepts, tools and techniques to solve organizational problems.
7. To understand the processes involved in the working of the various functional plants.
8. To create awareness for various research topics in the solar energy .

RESEARCH PROJECT

The candidate is expected to select a theme relevant to issues in consultation with the supervisor and make an exhaustive plan. Flexibility is accorded in planning and executing the Research Project. Creativity and analytical approach are the hallmarks of designing project. However, the activities are to be carried out under the direct supervision of the faculty supervisor.
